

## **District Councillor Report September 2026**

As always there was no MSDC meeting in August. The next meeting will be on the 24<sup>th</sup> of September.

The MSDC and Babergh have reiterated their firm objection to the overground Pylons Project that has attracted so much ire in Norfolk, Suffolk and Essex.

On the 3<sup>rd</sup> there was another meeting at New Street Carpark. This time I left the get together feeling upbeat. The Officer handling the issue seems energetic, focused and optimistic and new, feasible plans were presented. The tenants stand to be consulted.

Yours Sincerely,

Anders Linder

## **District Councillor Report July/August 2026**

There is really very little to put down into this report. The MSDC meeting for July was cancelled and in general things are quiet. In August, as always, there will be no MSDC meeting. The next MSDC meeting will be on the 24<sup>th</sup> of September.

The Council has been named 'National Finalist for Nature recovery work.

On the 23<sup>rd</sup> of July improvements were made at the site of New Street Close parking. These are not, at this stage, about improving the actual parking but deal with grass and hedge cutting. The tenants are very pleased with what has happened so far. It has been advised that due to pressure on tree roots parking bays are advisable under large trees. The matter is now with the Arboriculture Officer for consideration and the contractor is also working on alternative plans, hoped for to materialize this week, commencing with Monday the 3<sup>rd</sup>.

Yours Sincerely,

Anders Linder
